BUSINESS OBJECTIVES

❖ MISSION STATEMENT

To provide our clients with highest level of services in terms of:

- Quality
- Trust & Honesty
- Reliability
- Flexibility
- Value

❖ STRATEGY

At P&P Telecom, we take our commitments very seriously. We have 100% track record of delivering countless successful projects that help our clients achieve their targets regarding quality, time, and value.

Working as a partnership is the key element that put P&P Telecom where we are today. We maintain long-term relationship with our clients by managing a well balanced TRUST - QUALITY - VALUE standards.

TRUST is a quality that is hard to earn, but is easy to loose. We have received high regards when trust matters.

QUALITY is achieved by being professional in what we do and our commitment to succeed.

VALUE is the means of delivering products & services to the clients in the way that promotes efficiency and effectiveness, reducing total cost of operation.

CLIENTS

P&P Telecom has been maintaining excellent records providing products and services since 1974. Through our commitments and time, we have gained trust from numerous clients. The following names are some respectable organizations that have trusts on P&P Telecom.

STAFFS

Human resource is indisputably the most crucial part in organizational success. Here, at P&P Telecom, we take the quality of our staffs seriously.

Our director has extensive hardware and networking experience. He was a Silicon Valley veteran who has been involved in the design and making of Intel Based Microprocessors, Graphic Accelerators, and Cisco network equipments. In addition to his technical knowledge, he has also adapted world-class management into the organization

We maintain our own team of highly experienced Project Managers and Technicians, strictly limit subcontracting work only to perform non-critical tasks. Almost all of our project managers have at least 8 years experience and have been with P&P for 5 years or more.

Training is an integral part of the way we work. All staffs are required to undergo proper trainings and certifications. The company will be willing to provide verifications of our staff's certifications upon request.

In addition to superior technical standards, we also practice high ethical standards. Our good reputation extends across the entire partnership – clients, employees, suppliers, and subcontractors alike.

Years of excellent records are evidences that our corporate values are carried out by our staffs and shown through our works!

EXPERIENCES

Krungthai Computer Services Company Limited
